

Dear EATiP Member,

Please join us for this year's EATiP General Assembly (on-line) on the June 18 from 10:00 to 13:00 by completing the registration form at <https://forms.gle/RnX2qDEWqX9pmoVz7> – before June 15.

As an introduction, the EC (DG RTD and DG MARE) will inform about the upcoming opportunities in Horizon Europe and how the aquaculture sector can relate to those. In addition, the Biobased Industries Consortium, the European Knowledge and Innovation Community EIT Food and the BlueInvest community will explain their involvement with EATiP on how to promote aquaculture in the years to come. Please find the agenda below and on the Basecamp schedule.

We count on having all member entities present at the General Assembly. So if you are not able to attend personally, please present the invitation to a colleague so he/she can represent your organisation/company.

Strong alliances, collaborative actions and consensus statements are efficient ways to make aquaculture R&I matter. We value your support as member to EATiP, a common voice for pushing forward industry relevant research priorities.

Looking forward to “seeing you” on Teams!

Best regards,
EATiP
